

## Consider Reporting

---

You have two options if you choose to report an incident of sexual misconduct. You may pursue either or all of these options at any time. Perry Technical Institute encourages you to bring an incident to our attention sooner rather than later.

- 1) **File a complaint with the Title IX Coordinator to initiate the school disciplinary process and/or**
- 2) **File a report with the police, which may lead to criminal charges**

## Protective Measures

---

You may request protective measures and assistance with changes to academic (or employment) situations during your time at Perry Technical Institute. These can be instituted before, during or after an investigative process takes place. They vary for each situation, but make safety a top priority.

Students may seek protective measures without pursuing law enforcement or institutional investigations by contacting the Dean or Assistant Dean of Education or the Title IX Coordinator. Staff requesting protective measures should contact the HR Manager/Title IX Coordinator for Faculty & Staff Development.

If you wish to pursue a legal protection order, the school is available to assist you through that process.
